

Patrik Božurić

AI Deployment & Consultation - Voice Agents & LLM solutions

Sisak, Croatia • pbozuric@outlook.com • +385 99 284 9205 • bozuric.com • linkedin.com/in/pbozuric • github.com/p3bozuric

PROFILE

I deploy AI solutions for clients and own the relationship that gets them into production. I sit between business stakeholders and engineering teams - scoping the real problem, shaping the use case, and translating complex technical concepts for non-technical decision-makers. I deliver voice and chat agents, automate operational workflows, and drive adoption. I can also build what I propose, prototyping and demoing on production AI stacks myself, so what I bring to clients is working software, not slideware. Self-taught into a professional AI role with no formal CS background - evidence of fast learning and the ability to win trust and ship.

EXPERIENCE

AI Consultant ASEE

Jan 2026 - Present

- Advise clients on applying AI to operational and customer-facing workflows; scope use cases and own delivery from prototype to production.
- Consult on internal AI tooling implementations and AI adoption, helping teams integrate AI into their day-to-day operations.
- Deliver voicebot solutions for clients, from use-case definition and scoping through to production.
- Bridge client stakeholders and engineering teams, translating business needs into concrete technical requirements.

AI Developer ASEE

Mar 2025 - Dec 2025

- Integrated ElevenLabs voice AI into existing customer experience (CX) products.
- Prepared and ran product demos for prospective clients, presenting AI capabilities to non-technical audiences.
- Built a product documentation deployment on Zensical, with a pipeline to maintain the docs semi-automatically.
- Automated internal business processes (e.g. incoming email classification).

Founder KodAI

Oct 2024 - Present

- Founded an independent AI consultancy delivering custom AI integration and automation projects end-to-end - ownership of scoping, build, client communication, and delivery.

CAPABILITIES

DELIVERY & COMMUNICATION

Stakeholder communication, simplifying complex concepts for non-technical audiences, demoing to prospective clients, problem scoping, AI adoption & change management, owning ambiguous projects, fast self-directed learning.

TECHNICAL

LLM integration RAG ElevenLabs voice agents

LangChain/LangGraph LiveKit Python FastAPI

REST APIs Docker AWS n8n

LANGUAGES

Croatian: native • English: advanced

EDUCATION & CERTIFICATIONS

M.Sc. Nautical Studies & Maritime Transport Technology University of Rijeka

2020 - 2022

Dean's Award for Academic Excellence

Adding Knowledge to LLMs - NVIDIA Professional Certificate (2025)

SELECTED PROJECTS

AIDRIATIC in progress

Maritime intelligence platform spanning three streams: Office, Bridge, and Analysis. aidriatic.com

COLREG Assistant

Production voice-enabled maritime navigation agent (RAG). Real-time streaming responses, voice input, interactive visual aids. colregs.bozuric.com

ClawHarbor paused project

Personal AI assistant deployment service. clawharbor.io
